WHOLESALE ARRESTS OF MONKS AND NUNS

LISBON, Oct. 10.-In furtherance its announced policy to separate the church and state, and expel religious orders from Portugal, the new republican government is arresting monks and

The great problem confronting the government, however, is where to send the exiled churchmen and women. In-asmuch as Spain declines to receive them, it will be necessary for the gov ernment to find some over-sea nation that will permit the landing of ship-loads of penniless clericals. Up to date, no country has volunteered the thousands a refugee.

The authorities are confiscating church property in the name of the state as

ust as the inmates are removed by the lidiers, but have proven powerless thus ur to prevent considerable looting of ovable valuables by soldiers and

movable valuables by soldiers and hangers-on.

Priests and nuns are being submitted to many indignities, and it is reported that a number of them have been slain in various parts of the new republic. None are being excepted under the order of expulsion. Cardinal Jose Sebastias Netto, former patriarch of Lisbon, and Bishop Liete de Vascouncellos, of Beja, are among those who have been sent over the frontier.

School children in parochial, monastery, and convent schools are being returned to the homes of their parents. The Marquis de Pombal, head of the Jesuits in Portugal, and leader of the clerical party, is under arrest.

The sacking of many of the convents and monasteries has been accompanied by vandalism and sacrilege. Sacred

They were scenes recalling the worst phase of the French terror, with drunking revolutionaries dancing and singing the Marsellaise on the altars of ruined churches.

"Gangs of patriots armed with rifles, knives, bludgeons, and even immense haumers and pickaxes as weapons of offense were engaged in sacking convents and hunting fugitive priests through underground passages like rais, the while encouraged by women, who laughed from windows and balconies or took their chances with others in the street mob.

The watterface of discipline and plunder that the total loss from the fire, even if stopped today would amount to more than \$2,000,000 in lumber and private property.

It was shown today that at least 100 persons are still unaccounted for from Beaduette alone.

MOTHER OF ALFONSO TO VACATE PALACE

MADRID, Oct. 9.—(Via Hendaye, Oct. 10.)—In view of the charges that the religious influence of Queen Amelie over ther son. King Manuel of Portugal, had much to do with fostering the spirit of revolt, which toppled the youth off his throne, considerable significance is attached today to the announcement that Maria Christiana, Queen Mother of Spain, is to leave the royal palace, and take up her quarters in another section of the city.

RAINY RIVER, Ont., Oct. 10.-With the ruined towns of Baudette, Spooner, ered and seventy-five persons known to have perished, while 2,000 others are missing, urgent calls for aid were sent out from here today in hopes of getting the blazing forests under control.

The total number of dead as the result of the destruction of the towns so far leveled, is estimated today at from 200 to 500. Of the 2,000 still missing, the majority are believed to have taken refuge in the many small villages in this section, but it is admitted many must have perished. This move on the part of Christiana, it is declared, is made in an effort to prove to the Spanish people that she does not exercise a reactionary influence over King Alfonso.

Whether she takes this act of her own voiltien, or at the suggestion of her son's ministers, is not known outside the little kroup immediately surrounding the royal family. That it will convince anyone that Maria Christiana will cease meddling with Spanish politics is unlikely.

There has been some talk that she might go back to Austria, with her children, to live. Such a move might impress the people with her sincerity, but she declares that her ties as a mother keep her in Madrid.

Superintendent of Bathing Beach Urges Instruction

That places where children may learn swim are as necessary as school buildings, is the opinion expressed by Dr. W. B. Hudson, superintendent of the ng beach, in his annual report submitted to the Commissioners today.

More than 1,000 boys and 25 girls were

last summer, according to the report. A large percentage of this number received no other instruction than that given by their comrades.

given by their comrades.

"Public schools have been established all over the world and with the exception of the army and navy, more money is appropriated than for any other branch of the Government," says Dr. Hudson. "Now, to suppose that this money is spent merely to gratify the individual's desire for learning is out of the question. The Government expects in return the services of her educated citizens in her commerce, professions, etc. where competition counts. During the vacation season thousands of our school children throughout the country lose their lives by drowning and the money invested in their education is a dead loss. Therefore, I consider it just as incumbent upon the Government to provide places where a child can learn to swim as it is to provide for its schooling."

"During the season there were thirty two rescues made by the guards. Most
